SUMMARY

Project and marketing production manager with 7+ years running high-volume creative work for U.S. and LATAM clients. Currently lead a six-person distributed team at a Texas-based company, where a redesigned production system cut production hours by 20%. Build practical AI workflows with Claude that turn multi-hour manual tasks into repeatable team processes.

EXPERIENCE

Bell & McCoy Integrated Solutions Texas, USA (Remote, Contractor) | 10/2025 – Present

Marketing Production Manager

- Lead a distributed team of 6 (2 copywriters, 2 video editors, 1 web developer, 1 operations coordinator), owning priorities, workload, timelines, and delivery across **7 client accounts and ~160 content pieces per month**.
- Designed a two-wave production system with staggered calendars, defined handoffs, copy delivered one day before video, and a one-week publishing buffer, cutting **production hours by 20%**.
- Built the Content Session Analyzer, a Claude Skill that turns Happy Scribe transcripts into analysis mapped to 11 content pillars. Reduced analysis time from up to **4 hours to about 1.5–2 hours** and rolled it out to the full team.
- Created further Claude Skills for weekly production-hour tracking and extraction of post concepts with timestamps, and use Claude Code and Claude Cowork to automate repetitive production work.
- Designed the operating workflow for a new in-house website offering (production stages, workload allocation, hosting decisions, monthly update capacity) and set up team rhythms and tools (Asana, Harvest, Roam, Box).

<elastica> Remote / LATAM | 08/2019 – 10/2025
Creative Project Manager

- Managed **200+ creative and marketing projects per year** for international clients, coordinating designers, copywriters, and external partners across LATAM.
- For the past 4 years, served as the dedicated project manager for one long-term international client, supporting a team of 7 stakeholders who each owned a different internal product.
- Ran regional campaigns, branding, and loyalty programs for Avianca and LifeMiles, turning business objectives into briefs, production plans, and approved deliverables.
- Planned and prioritized work in a high-volume environment using Agile/Scrum: roadmaps, sprints, backlogs, kickoffs, and project closeouts.

University of Costa Rica, International Affairs Office San José, Costa Rica | 03/2019 – 12/2019
